

Summer Camp 2010

All kids love to draw, paint and creat. It's second nature! Here at the Warwick Museum of Art, we believe that art education and experience is important at any age.

We provide the supplies, the inspiration, and the instruction... you provide the creativity! Classes are designed for students ages 6 - 12. 100% of all proceeds help to pay for the many exhibitions, programs and events held at the largest non profit Arts venue in Kent County...the WMOA.

Our instructors have studied art at various collages and universities throughout New England and we are committed to promoting education through artistic expression.
